

Community Schools Program

As a method of extending educational opportunities to the entire community through a fuller utilization of school facilities, a community schools program may be established with the approval of the Board of Directors. The program shall be financed primarily by federal or state funds available for this purpose. If such a program is approved, the superintendent shall periodically present to the board for review a plan which describes how the program will be organized and funded and how it will benefit the community.

The board directs the superintendent to prepare appropriate regulations to implement this policy.
