

Cellular Telephone Use

It is the intent of the Yakima School District to use cellular telephone technology to:

1. provide for the most economical and efficient use of personnel time, materials and equipment in providing educational services to its students, staff, and public; and
2. ensure the safety of its students, staff, and public.

Based upon their operational needs, building principals and program directors are authorized to determine the level of need and employee authorization. They shall be accountable and responsible for monitoring the use and/or abuse of cellular telephones assigned to their building or program.

Inventory and billing control will be on a district-wide basis through the business office.

The board directs the superintendent to prepare appropriate procedures to implement this policy.
