

Bus Routes and Schedules Bus Stop Guidelines

Bus stops shall be established when possible, which:

1. Are frequent enough so students do not have to walk more than one (1) radius mile to and from the bus.
2. Are located where students can stand a safe distance from the road.
3. Provide at least five-hundred (500) feet of unobstructed visibility in both directions [WAC 392-145-030(3)].
4. Provide five-hundred (500) feet visibility on a curve or a hill. If it is impossible to secure a distance of at least five-hundred (500) feet, the school authorities shall advise the state patrol and have proper signs installed [WAC 392-145-030(8)].
5. Require as few students as possible to cross roadways with no students crossing multiple lane roads and highways.
6. Are located where no damage is likely to occur to private property and where the number of students waiting does not create unsafe conditions and/or situations.
