

Private Vehicle Transportation

The board authorizes the use of private vehicles under the following circumstances:

1. Under unusual circumstances, the district may request parents, or a responsible adult, to drive children to school in their own vehicles on a per-mile cost reimbursable basis. The transportation department determines when in-lieu transportation would be advantageous to the district and arranges its implementation. In cases where car pools are formed by families, reimbursement shall be provided only to the parent whose car is used to transport the students to school.
2. Upon written approval of the principal, staff may transport students when a student's welfare is involved, when due care dictates prompt action, or when engaged in an occasional extracurricular activity. The staff member shall acknowledge that he/she agrees to assume full responsibility for any liability or property damage, comprehensive or collision, made by or against the driver/owner of the vehicle. The district's liability insurance shall cover the risk assumed by the district. The mileage of the staff member shall be reimbursed by the district. Field trip use of private vehicles is restricted; see policy and procedures 2320.

The board directs the superintendent to prepare appropriate regulations to implement this policy.
